

Mannanan 2012 Scale Competition Classes.

The Scale Competition is divided into 4 classes for Kit Built boats, Semi Kit Boats, Scratch Built boats and Static boats (which includes dioramas). All models must have been built by the entrant.

- Kit built boats are to be from a recognised manufacturer with everything supplied in the box except glues, paints etc. Only if you can demonstrate substantial modification or rebuilding of a kit will it be allowed into a semi kit class.
- Semi Kit class to be a purchased hull with the rest scratch built.
- Scratch class to be boats built entirely from scratch by the builder.

The Scale Competition is open to all models with the exception of previous Best in Show Winners and previous Class Winners from 2011 onwards. All previous winners are welcome to display their models at the event as non competition entries, and previous Class Winners are still eligible to enter the 'Best in Show' award.

No 'ready to run' models are eligible for entry. (this rule may be relaxed at the discretion of the judge for junior entries). Winners of the 'Best in Show' are not allowed to re-enter, but may be placed on display only.

The Best in Show award to be chosen using a ballot amongst entrants and club members on the day to choose their top 3 boats.

Please note – The Judges may move a model to a different class if in their opinion it is entered in the wrong class.

Full details of entry conditions and rules can be found on the Manx Model Boat Club web site www.manxmodelboatclub.org.
